

Overview

MASTER MARINE SURVEY was established in 1997 by Captain Philip Carter, a Class One Master Mariner. Capt. Carter's qualifications and experience include:

- Completion of his Class One Master Mariners qualification in 1992 along with many years of sailing experience on a variety of motorised vessels including dry cargo vessels, Ro-Ro vessels, tankers, anchor handling vessels, and offshore supply vessels.
- Employment and experience with the South African Port Authorities as a Tug Mate and Tug Master.
- Commencement of his marine surveying career along with many years of marine surveying experience with leading marine surveyor enterprise P&I Associates in Durban before leaving them to gain experience in additional marine surveying fields.
- Training as a Lead Auditor/Auditor for Quality Management Systems including I.S.M. through Stebbing and Partners International.

Captain Philip Carter's experience in the marine surveying industry includes vessel condition, on-hire condition, off-hire condition and bunker quantity, tank top condition, general cargo preload, general cargo discharge out-turn, draught or deadweight, vessel damage, stevedore equipment damage, stevedore injury, investigation, container unpack/repack, heavy weather

We specialise in:

All types of marine surveys and consultations by and for an experienced Master Mariner to the International Shipping Industry in regards to:

- General Vessel condition
- General Cargo condition and or damage
- Containerised cargo condition and or damage
- Personal Injury or Accident on board a vessel
- Heavy Weather damage
- Draft/Deadweight measurements

Vision

To offer quality marine surveying and consultation services to the marine industry which includes a personal, reliable, efficient and timeous response to clients call outs and reliable, highly qualified reporting back on work undertaken.

Mission

To serve international Ship Owners, Charterers and Shipping Agents of the marine industry with professional services of marine surveyors under the direction of a qualified Master Mariner.
